Supervising	

ABOUT ME

I am a high impact **Technical Leader** who believes that the best solutions are only as good as the teams that delivers them. Over the last two decades, I have evolved from a Senior Systems Engineer into a **Sales Engineering Manager** by focusing on two things: technical excellence and people-first leadership.

Whether I am designing a data center for **an enterprise** or leading the technical sales strategy, my goal is always to empower my team and simplify the complexity for my clients.

WORK EXPERIENCE

2016 - Present

Sales Engineering Manager Mimecast

Serving as a strategic technical leader for MEA regions, driving the alignment between complex security solutions and the business objectives of enterprise clients across the MEA region.

- Drives regional technical strategy to align Mimecast's solutions with enterprise business objectives and ensuring successful closure of deals.
- Serves as a lead consultant bridging complex infrastructure with enterprise-level security requirements.
- Accelerates pipeline growth by representing Mimecast at high-profile marketing and customer events through keynote presentations and technical public speaking.

2015 - 2016

ICT Operations Manager Transguard Group

Directed the infrastructure and service delivery teams. I was responsible for managing the operational systems that supported the group's extensive business activities.

- Directed infrastructure stability and system reliability across the group's diverse business units.
- Managed technical operations teams of 40 people to ensure consistent, high-performance ICT service delivery.
- Led the operational maintenance of mission-critical systems supporting large-scale enterprise activities.

2009 - 2015

Infrastructure and UC Lead **I.D.C S.p.A**

Managed complex Microsoft systems implementations and unified communications strategies for major regional enterprises.

- Designed and implemented multiple migrations to Office 365 and Azure.
- Spearheaded the technical rollout of **Lync Server 2010** and Office Communications Server and Voice gateways for tier-one organizations including **Etisalat and Du**.
- Led mission-critical implementations for **Microsoft VDI, Exchange, SharePoint, FIM** and various other solutions for high-profile clients like **Gulf News and ADNOC**.
